Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

16th May, 1947.

S. Dear Sirs,

S.S. "THORA DAN"

I duly received your letter of the 3rd instant and have to say that the remarks made by the New York Surveyors regarding the electrical equipment have now received consideration here, and in view of the three generators being of equal kilowatt rating and having similar speeds, also of the satisfactory report from the New York Surveyors regarding their operation, no exception will be taken in this instance to the equalizer cables already fitted being retained.

I shall be glad if you will inform the Owners accordingly.

Yours faithfully,

The Surveyors,
COPENHAGEN.
