TS OG

pt.elec.welded.

For Ferry & Towing services between Mocambique & Lumbo.

Surveys due Last seen in dry dock 1.52.
Modified Survey of the Oil Engines due 11.53.

Proposed to be held.

Remarks. In reply to enquiry the Durban Surveyor forwarded a letter from the Owners' Representatives in which they stated that no arrangements had been made to carry out the Modified Survey of the Oil Engines and that as there was no dry dock locally it was impossible to have the vessel docked, but the bottom was kept in repair by running the vessel on to the beach approximately every six months. The last occasion being in September/October last. In his letter the Durban Surveyor suggested that this Office should get in touch with the Lisbon Surveyors with a view to their endeavouring to obtain information regarding this vessel from the Government Authorities.

The attached letter has now been received in reply.

Chief Surveyors' recommendations.
