C. 10665

Lloyd's Register of Shipping.

Port NEWCASTLE ON TYNE.

5th August 1940.

Liouette
Report 7.10.40

Please attach to Incl. Rpt. No. 50882

This is to Certify that

L. PESKETT,

the undersigned Surveyor to this Society did at the request of Messrs. E. N. Mackley & Co., Gateshead, attend at their Works on 3rd July 1940 and subsequently at the Works of Messrs. Clarke, Chapman & Co. Ltd., Gateshead, for the purpose of inspecting one Centrifugal Circulating Pump made by Messrs. E. N. Mackley & Co. to the order of Messrs. Amos & Smith Ltd., Hull, Order No. 8330, and intended for Admiralty Contract No. J.5085.

The Pump is driven by an enclosed forced lubrication vertical steam Engine having one Cast Iron Steam Cylinder 6" dia. by 3½" stroke.

The Cylinder and Valve Chest were tested at 400 lbs. per square inch water pressure with satisfactory results.

On completion the Pump and Engine were examined running under steam and found satisfactory. Spare Gear has been fitted in place.

So far as could be seen the workmanship and materials employed in the construction of this Pump are good.

For the purpose of identification the Pump was stamped:-

No. 8962.
LLOYD'S TEST.
400 lbs.
L.P. 3-7-40.

L. Peskett.

SURVEYOR TO LLOYD'S REGISTER.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
