

172 x 36.5 x 13.25

Steel non-propelled bucket dredger, Yard No. 443, proposed to be built by Ferguson Brothers (Port Glasgow) Ltd., with a view to class.

Dimensions: 172' x 36.5' x 13.25'  
Proportions: Length = 13 depths  
Owners: South African Railways.

Plans, in triplicate, of Midship Section, Profile & Decks submitted by the Greenock Surveyors.

This vessel is a normal bucket dredger. The draught desired is less than that which could be assigned by the Load Line regulations and in accordance with Section 36 the scantlings have been based on a draught of 0.70.

IT IS SUBMITTED THE Surveyors be informed that, provided

COMPLIANCE (AMENDED)

the ship will be eligible to be classed 100A1 Dredger "For Restricted Service", with the descriptive notation "Bucket Dredger".

E.W. NOTE AND NOTATION

The Surveyors should be requested to obtain from the Builders and forward to this Office details of the proposed service limits.

Two copies of each plan should be returned to the Surveyors, the remaining copies being retained for record purposes.

27th May, 1964.
