I declare that the items detailed in this report (except as stated otherwise) comply with the requirements of the Merchant Shipping (Cargo Ship Construction and Survey) Rules 1965, applicable to this ship and are in all respects satisfactory for the service on which the ship is intended to ply, namely, International voyages/voyages within the limits

(The above declaration applies to sea-going cargo ships  
of 500 tons gross and above registered in the U.K.)

I recommend that the machinery of this ship remain as classed with/without fresh record of **CSM (with date)** upon completion and subject to any outstanding condition which may at present be attached to the ship's class being dealt with as previously recommended.

(Where conditions of class are recommended to be retained, imposed, amended or deleted, particulars must be stated above and on the Interim certificate).

are to be cancelled; this need not be done when the machinery is  
on a continuous survey basis. When any part has been hydraulic-  
ally tested the pressure should be stated. Engine parts when referred  
to by numbers should be counted from forward.

that date a distinguishing mark must be inserted against the  
item and the circumstances and action taken or recommended  
described fully under "defects and repairs". At part or complete  
Special Surveys those items which are not applicable to the ship

The condition of any item is to be described as "good" only when  
it has been examined, found or placed in good condition, and is  
considered to be acceptable until the due date of the next Periodical  
Examination. Where re-examination or repairs should be made before

## PARTICULARS OF DEFECTS, REPAIRS, ALTERATIONS, ETC.

The reason for repairs must be stated and those on account of damage, the alleged cause of which must be given, should be detailed separately for wear and tear repairs. State what action has been taken regarding items which are subjects of class. State also where appropriate, for the information of the Technical Records Dept., the material of the defective item and whether it is a forging, casting or welded fabrication. Any alterations in existing particulars in the Register Book should be reported above.
