

23rd November, 1949.

Dear Sirs,

Motor Ship "YEN MEN".

S.(D.O.)

The contents of your Report No.7891 are noted, but before submitting the case to the Committee I shall be glad to learn whether the cargo port doors and side scuttles were fitted in accordance with the approved plans, and whether the webs supporting the side shell were reinforced for the extended service of "For Coasting Service between Shanghai and Ports in the China Sea", which is the class now being assigned at the request of the Owners to similar ships.

Yours faithfully,

The Principal Surveyors,  
MONTREAL.

Clerk to the  
Classification Committee.
