R2

February 10, 1947.

Dear Sirs,

S.S. "BARON FAIRLIE"

With reference to Mr. Lee's report on this ship dated October 30, 1946, it is not quite clear from the list of drillings and the report what renewals were effected as a result of the thicknesses obtained. You might be good enough, therefore, to forward a further copy of the list of drillings, indicating clearly thereon what renewals were carried out during the course of the survey, or, alternatively, advise me that Mr. Lee was satisfied that the thicknesses obtained were, in his opinion, good for a further period of five years.

Please confirm that the deep tank was tested.

Yours faithfully,

The Surveyors,
LIVERPOOL.
