Ocean Chambers, Lowgate, HULL.

Dear Sirs,

S.T. "ARCTIC RANGER".

Further to our letter of the 5th instant in which we stated that the Boiler Survey would be carried out on the above vessel, we have now amended our programme, which means that the vessel will be proceeding to the Tyne at the end of July for conversion to oil fuel. It is our intention to undertake the outstanding survey during the period of conversion and we intend to take the opportunity of renewing the internals of the Boiler.

In view of the foregoing programme, also that the vessel is required for immediate service, we should be pleased if your favourable consideration could be given to this case and an extension of the period for survey granted.

Yours faithfully,

(sgd.) H. Briggs.

Superintendent Engineer.
