JEEP VESSELS

I visited Mr. Macfarlane, who is now responsible
these vessels in place of Mr. Clementson, and informed him
of the 15 vessels allocated to Lloyd's Register 14 had
n classed.

Mr. Macfarlane was aware that the agreed fee of £120
per vessel was subject to deductions for work carried out
under the supervision of the British Corporation and it was
arranged that accounts for survey fees should be rendered to
the Managers and that a statement giving particulars of the
fees should be sent to Mr. Macfarlane for his information.

As regards the "WILLIAM HOMAN", in which the transfer
to Lloyd's Register has not yet been effected, it was arranged
that this vessel will be submitted to the necessary survey for
classification about October next at the close of the present
timber season and Mr. Macfarlane will advise the Managers
accordingly.
