Genoa, (408), 29th January, 1951

Dear Sir,

Reference

S.S. "A U D A X".

ssn.

With further reference to the case of the above vessel, we have to acquaint you that the Owner called at this Office this morning to discuss the method of expunging the class.

It gave me an opportunity to fully explain to him the sequence of events, and the procedure that he should have adopted in the first place.

He now fully understands that when the Boilers repairs have been completed, an opportunity should be given to the Society's Surveyors to ensure that the defects previously reported have been satisfactorily dealt with.

He assured me that he would not fail in his obligation on this occasion.

I have to confirm also that my letter of the 17th inst. was in his possession.

Yours faithfully,
