

POSTPONED SURVEYS.

Case of the Tw. Sc. M.S. "PAULA"

No. 72428 in Reg. Bk. tons, Built

Classed Owners

Port of Registry

Survey Due Reclassification Contemplated. Examined notation expired 8.52. Last S.S. record No. 3 12.39. (c5 case) Donkey Boiler Survey due 8.52. Indented bottom plating &c. (s.s.f.) to be dealt with at reclassification survey.

The attached letter has been received from the Owners London Representatives intimating that it is not the Owners intention to use this vessel for further deep sea trading. They state, however, that it is possible her services could be used as a mobile bunkering craft in Singapore Harbour, in which case they would like to know the Society's requirements to retain her in class in this limited service. Before any decision can be made, however, they wish to find out whether the vessel would be suitable for bunkering purposes and request that her class might be extended for a month in order to allow the vessel to be tried out in the above duties.

Submitted for Consideration.
