by Chief Engineer Surveyor

Received from Chief Engineer Surveyor

VESSEL'S NAME

"JAVA"

REPORT Lon.

N25874.

The remarks of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

"The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/52.)

of Survey

~~REPAIRS-TO-ENGINES-AND-BOILERS-DUE-TO-DAMAGE-THROUGH-~~

This vessel is 47 years old and a Special Survey became due in 7,52. The Owners proposal to deal with the Special Survey in September, 1952 as approved. The London Surveyors now report the Survey on the Machinery, as a result of which they recommended the boiler be hydraulically tested, the screwshaft liner be renewed and the shaft in way examined. These recommendations have not been carried out and the Owners have now declared their intention of removing the vessel from class. In the circumstances IT IS SUBMITTED that the vessel's class be expunged.
