ANSD.....

1st July, 1947.

Dear Sir,

With reference to Dundee Report No. 9584 on the S.S. "COIMBRA" ex "HERMETRAY" forwarded to your Office to-day with the other reports which received the consideration of the Glasgow Sub-Committee of Classification, I was directed by the Committee to call your attention to the Surveyor's remarks regarding the new screwshaft which has been fitted in this vessel and to say that in accepting the Surveyor's recommendation in regard to the record of new screwshaft, it was considered that if this vessel's machinery class bears the Special Survey Cross some modification thereto would appear to be necessary in respect of this Admiralty tested shaft.

I am, Dear Sir,
Yours faithfully,

J. K. K. K.
Secretary to the
Glasgow Committee.

The Secretary,
LONDON.
