

H.M.S. "OLNA"

Messrs. Swan Hunter & Wigham Richardson's No.1689.

It is submitted the Newcastle Surveyors be informed that the matter mentioned in the 3rd paragraph of their letter has been carefully examined and it is considered that with the centre compartment used as workshops and stores and spirit carried around this space, cofferdams should be built in No.1 wings and at the after side of the after boundary of No.2 tank.
