Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

30th October 1920.

Dear Sirs,

With reference to your First Entry Report No. 32238 on the Steel S.S. "CAVENDISH", ex "WILLIAM LEEK", I shall be glad if you will kindly state whether the size of bilge keelson and thickness of upper deck stringer plate given on your Report are correct, in view of the scantlings shewn on the plan forwarded therewith.

Further, the length of the quarter deck as given on the Report is evidently incorrect, and I shall be glad if you will verify this.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

HULL.
