

2nd October, 1952.

Dear Mr. Dickerson,

As regards the "MOONLIGHT" and your letter of the 1st, I have looked at the plans and find that although there was no equipment detailed on the approved midship section, there was a note in indellible pencil reading "equipment letter 'a'". The equipment actually supplied was detailed on the plan of midship section "as built".

I trust that this information will enable Mr. Lee to forward his comments.

With kindest regards,  
Yours sincerely,

H. Dickerson, Esq.,  
MIDDLESBROUGH.
