Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

LUBRO LAKE

3rd December, 1937.

Dear Sir,

I duly received your letter of the 19th ultimo,
S. respecting the motorship "MERCURY".

With regard to your remarks, I have to acquaint
you that the figure of 14.14 sq. inches given in the first
entry report for the total area through the donkey boiler
safety valves would satisfy the requirements of the Rules if
an approved type of high lift safety valve were fitted.

In this connexion I should be glad if you
would kindly state whether the type of valve fitted has been
approved in ^{your} this Office, as the report gives the makers of the
safety valves as the Crosby Steam Gage Co., concerning which
I would refer you to my letter of the 29th ultimo, regarding
the motorships "LOUISIANA" and "FLORIDA".

I am, Dear Sir,

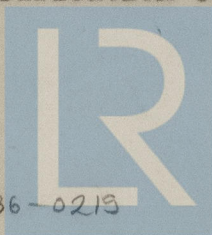

Yours faithfully,

Clerk to the
Classification Committee.

Wm. Bennett, Esq., B.Sc.,

NEW YORK.
