LLOYD'S REGISTER OF SHIPPING

Port..... HONG KONG.

Date..... 1st August, 1967.

This is to Certify that I have surveyed part of the machinery of the M.S. "MICHALIS", 7375 gross tons, of Syra, for Re-examination of the port outboard boiler feed pump under working conditions (Condition of Class), and that all my recommendations have been carried out to my satisfaction. I am reporting accordingly and recommending to the Committee of Lloyd's Register of Shipping that the machinery classification should be retained ~~and the following survey records assigned~~ without fresh record of survey, subject to the port outboard boiler feed pump bucket chamber (water end) being renewed by the end of December, 1967, and subject to Parts now examined:— any other outstanding conditions of class being dealt with as previously recommended.

(Signed)

Surveyor to Lloyd's Register of Shipping

J. McCarlie
