

Lloyd's Register of Shipping,

Collingwood Buildings, Newcastle-on-Tyne, 1.

10th September 1935.

Reference

Plan
The Secretary,
LONDON.

Dear Sir,

m.s. "AGUILA II".

With reference to your letter of 5th inst. approving plans of Quadrant and Tiller for electric Steering Gear for the above ship, I have to state that the diameter and spacing of the coupling bolts will be made suitable for the existing rudder head of $6\frac{1}{2}$ " diameter, and that this rudder head is circular in way of the new Quadrant and Tiller which will be fitted on the deck above the original Quadrant.

The plan of rudder is returned herewith.

I am, Dear Sir,

Yours faithfully,

H. Y. Hester
