Classification of "SIDI BELYOUT" and "IFRANE"

Dear Sirs,

We wish to inform you that we are having built at Bremerhaven at the Weser Yard a 1,500 Horse Power deep sea tug. It is to be built to Bureau Veritas Class. When this vessel is in service, which is expected to be in the middle of May, 1954, all our vessels, with the exception of two, will be classed with the Bureau Veritas.

In the circumstances in order to simplify our services we regretfully ask you to cancel your class for the "SIDI BELYOUT" and "IFRANE" which will be classed with the Bureau Veritas.

I take this opportunity of thanking you for the excellent services rendered by your Surveyors. We may well call on their services for special undertakings, should the need arise.

I should be glad if you would send a copy of this letter to Lloyd's, unless you would prefer me to write direct, in which case would you please give me their address.

Yours faithfully,
