

Primer to Linnaga
 E.F. NIN. OKEANOPOROS
 N/N KOSTIS A. GEORGILIS

8th September, 1948.

Dear Sirs, s.s. "SKIPSEA"

At the request of Messrs. Wm. Brown, Atkinson & Co. Ltd., I have to advise you that the London Surveyors today report that the Special Survey requisite for the full classification of this vessel with the Society has been completed except that all deep tanks require to be tested.

It is understood that this item will be complied with later in the week and on satisfactory completion the Surveyors will recommend to the Committee that the vessel is eligible to be classed LOCAL with record of S.S. Gms. 12,47. subject to permanent repairs to shell plating etc., abreast No.2 hold (s.s.) being effected at the first opportunity convenient to the Owners.

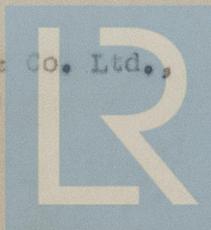

As regards her machinery, she already had a valid notation of LMC (Lloyd's Machinery Certificate) 12,47. and the Surveyors report that the overdue Screwshaft Survey has now been satisfactorily carried out but the machinery spare gear still remains to be checked to accord with Rule requirements.

Official Classification Certificates will be issued when the Surveyors' reports have been checked and submitted to the Committee.

Yours faithfully,

Clerk to the
 Classification Committee

Messrs. Jonason, Bray & Co. Ltd.,
 101, Leadenhall Street,
 London, E.C.3.
