10th August, 1948.

Dear Sirs,

I have to inform you I am advised by the Owners of the steamer "SKIPSEA" that this vessel is due in London some time this week and that the survey for renewal of the Lead Line Certificate, together with the completion of the Special Survey, will be dealt with towards the second half of this month.

I shall therefore be glad if you will give the case the necessary attention.

Yours faithfully,

The Surveyors,
LONDON.
