Dear Sirs,

m.s. "TAXIARCHIS MICHAEL"

With reference to the classification in the Society's Register Book, I have to remind you that the Auxiliary Boiler Survey became due at the end of October last.

I would also remind you that the machinery class of this vessel is subject to the main engine crank driven scavenge pump crankpin journal being specially examined by the end of October last.

I shall, therefore, be glad to learn, at your earliest convenience, what arrangements are proposed to be made for these inspections to be held.

I would take this opportunity to point out that the Special Survey has been postponed until the end of next month, and your intentions regarding this inspection would be appreciated in due course.

Yours faithfully,

Classification Manager.
