GOD/VT

13th June, 1946.

Dear Sir,

Inglis Ship No.1313. A/MS 1321.  
m.v. "EMPIRE TEDMUIR"

With reference to your letter of the 29th and my acknowledgment of the 31st ultimo, I beg to acquaint you that the Glasgow Surveyors, under whose supervision the vessel was built, state that the tests of No.2 cargo tank (port and starboard) were witnessed by them and the results were satisfactory.

When the tanks were tested the bulkhead pieces were in place and no leakage was observed between the flanges and the bulkhead plating.

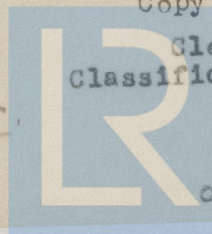

The tanks were not again tested when the cargo pipe lines were complete.

Yours faithfully,

Copy sent Gls.

Clerk to the  
Classification Committee
