

"BASSETHOUND"

Captain Allan has called and stated that this ship has now been sold with delivery in the Thames. It is understood she is going to be employed in the Thames Estuary.

Mr. Warwick, his Chairman, desires to bring the ship round from Manchester without further drydocking and will be obliged if we will confirm whether the Committee's previous decision on 23rd March, for a voyage to Italy within a month or so, will cover a voyage to the Thames without drydocking.

11th June, 1954.

*Agreed. and
reported to RMT
one phone afterwards*
