

20531

Laxmi

S.S. "KARACHI".

---

This vessel was built in 1918 under the survey of the British Corporation to plans mutually approved by Lloyd's Register and the British Corporation for the "CASTLE" type of Trawlers.

She came under the survey of this Society at Hull from June to September 1920, when being converted into a cargo carrier, and on the 17th September 1920 she was classed 100A1 by the Committee.

The question has now been raised as to when the Special Survey No. 1 should be reckoned to become due. The Hull Surveyors have been communicated with, and state that in their opinion the survey held in 1920 might be considered as complying with the requirements of the Special Survey No. 3, and it is submitted that in the circumstances the vessel might be assigned the notation of

S.S.Hul.No.3 - 9,20.
