

COPY.

10th September 1920.

Dear Sirs,

With reference to your First Entry Report No. 32105, on the Steel Screw Steamer "KARACHI", (ex "GEORGE HARRIS"), I shall be glad if you will kindly state the diameter of the rudder main piece at head and heel, whether the thickness of the rudder plates is as approved for this class of vessel, the length of the erections, and also whether the floors are flanged in way of the space where solid cement has been removed.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

HULL.
