Dear Sir,

Tug "FLYING METEOR".

We have been in communication with the Owners of this tug about the Annual Load Line Survey which is now due and we were informed by them that, as is their usual practice, they wished to withdraw the ship from Classification.

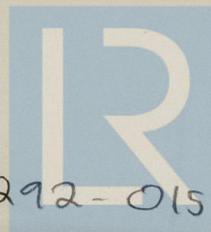

The Owners were then asked to make formal request to the Committee for this to be arranged and the enclosed letter is their response to this request. We assume that the form in which the request is made will be acceptable to the Committee.

Yours faithfully,

The Surveyors,
