

"  
S. S. John Evans.  
"

This vessel was built under Special Survey of this Society at South Shields

The Engines made by Messrs Smith Dock Co. Middlesbrough and the boiler by Messrs Palmers, S. B. Co., were constructed and installed on board under the supervision of the British Corporation Surveyors, and the certificate issued by them is attached hereto.

As it is provided in the Committee's circular letter dated 16<sup>th</sup> March 1918, that in such cases this Society will issue the Machinery certificate with the notation of L.M.C. with date in red, it is submitted this vessel is eligible for the record of L.M.C. 3-20

CERTIFICATE WRITTEN.
