

ary, 1955.

en. (17)

Receipt of your letter of the 12th instant respecting the Steamer "AGIOS GEORGIOS" and have to inform you that to entitle this vessel to reclassification, all the requirements of a Special Survey (D) including drill testing of shell and deck plating should be complied with. Particulars of equipment on board should be furnished including the weights of anchors, and a complete Special Survey of the engines and boilers, together with steam pipes and screwshaft, should be carried out.

When the vessel was disclassed in November last her class was subject to permanent repairs being carried out to forecastle deck guard rails, etc. (port side) and to the main engine circulating pump being renewed and these items should also be dealt with during the course of the Reclassification Survey.

Yours faithfully,

Clerk to the
Classification Committee.

A. C. Bone, Esq.,
PIRAEUS.
