

EXTRACT FROM CLASSING LETTER SENT TO SOUTHAMPTON
DATED 8.2.57.

23899 and 23975 "CAPETOWN CASTLE" - As recommended, except that
notations of SS(P) 17,55 and +LMC(CS) 11,55 have been assigned.

I think it well to point out that the holding down bolts
and chocks of both engines, the starboard main engine aft
scavenge blower, No.10 crankpin and the evaporator have not
been surveyed for more than four years. The Owners should
be informed accordingly and arrangements made for these
parts to be inspected at an early date. Please let me know
the Owners' proposals in this respect. I acknowledge
receipt of your letter of the 17th January, with its enclosure,
the contents of which have been noted.

23908,09,82 - As recommended.
