

Ballast Pumps, No. and size 10 9x11x10

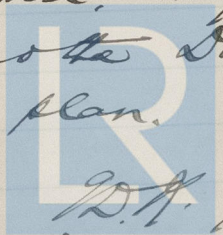

Lubricating Oil Pumps, including Spare Pump, No. and size

Are two independent means arranged for circulation water

St. Therese.

Std. 29666.

It is submitted that before this ~~can~~
receive consideration the Sunderland
Surveyors be requested to state whether the
Machinery space bilge pipes have straight tail
pipes accessible and boxes, whether all
pipe cocks pumps etc are accessible at all
times, & whether the pumping arrangements are
such as to prevent flooding of the machinery
& cargo spaces, as this information has been
omitted from the Report. They should also
be requested to forward the Donkey Boiler
report & approved plan.
