Dear Sirs,

Tug "SIDI BELYOUT"

I am in receipt of your letter of the 20th ultimo enclosing a copy of the Certificate which was issued by your Surveyor following his recent survey of this vessel's boiler.

Before the case is submitted to the Committee, however, with a view to the assignment of a notation of BS 8,53, I shall be glad if you will kindly let me have the Surveyor's confirmation that the safety valves were adjusted to 180 lb. per square inch, instead of the approved working pressure of 220 lb. per square inch, at the Owners' request.

Confirmation is also desired that the oil fuel and fire extinguishing installations were examined under working conditions.

Yours faithfully,

Assistant Clerk to the
Classification Committee.

Messrs. L. Barber Limited,
Lloyd's Agents,
(Boite Postale 420),
CASABLANCA,
Morocco.
