Last Survey, No. 4742 Port Aber

(Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarized in the form shown below. Whenever the replacement of Anchors, Chains, or Hawsers is reported, the particulars of weight or size and test of the articles should be clearly stated, and also the weight or size, &c., required by the Rules, together with the vessel's Equipment Letter, if any. State also the dates and initials of any letters respecting this case.)

REPAIRS, OR EXAMINATION AS PER RULE, FOR Sighting bottom

The vessel placed in the above dry dock the bottom examined and the keel scarp leaking also a few butts in the outside planking on each side. The caulking tested and found satisfactory excepting the butts. The whole of the butts recaulked including the keel scarp the latter has also been fitted with a binding plate on each side of the keel 10 ft in length fastened with through bolts clenched on the plates.

### General Observations, Opinion as to Class, Recommendation, &c.:-

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—"to remain as now classed in the Register Book without fresh record of Survey;" "to remain as classed and to have record of survey, 9,91," or "to remain as classed and to have record of survey, 9,91, and the notations of ss No. 1-91 and ptND91, &c."

This vessel so far as seen is in good and efficient condition, and eligible in my opinion to remain as classed and to be noted 5.94 in the Register Book.
