one Encl<sup>r</sup>

The Secretary  
Lloyd's Reg<sup>d</sup> of Shipping  
Sir

Kindly I beg to forward  
for the consideration of the Committee  
the enclosed tracing showing  
the pumping arrangement of Messrs  
A Hall & Co. No 333 vessel, (cellular  
double bottom with no wells)

Provided a sluice valve be fitted  
on the forepeak bulkhead or a deck  
pump in lieu of same; and a  
sludge injection be fitted in the  
engine room the proposal may  
merit the approval of the Committee

I am Sir

Your obedient servant  
G S Hindmarsh

24/10/89

A. M.  
W. J. M. T. S.  
L. Parker

Submitted that the pumping  
arrangement be considered satisfactory  
provided a check valve, be fitted in this compartment.  
on the fore peak bulkhead <sup>or a hand pump be fitted</sup> and  
the main. luber injection fitted  
in the engine room
