Dear Mr Dimmock, s.s. "Chanticleer"

I understood from Mr. Neilson, who came through from Glasgow to see the new boiler of above vessel, steamed, that it had been constructed under your survey. —

The vessel sailed a week ago for Plymouth,
but I have kept back my report, in the expectation
of receiving your First Entry on the boiler, for
completion. Please let me know, how the case
stands, and if your report has already gone forward,
will you kindly send me the makers' N^o, and
particulars of stamp mark - both of which I have
mislaid -

Thanking you in anticipation.

I am,
Yours faithfully
Foley Lowell
