

COPY.

14th November, 1906.

Sir,

S. With reference to your letter of the 9th instant, respecting Mr. Dimmock's first entry report on a new boiler No. 8338 which has recently been fitted on board the steam trawler "CHANTICLEER" at Aberdeen, it is observed that the last date of survey at Glasgow was the 28th September and that the last date of survey at Aberdeen after the boiler had been fitted on board was the 22nd October.

In the circumstances I have to enquire on what date Mr. Dimmock's report was handed in to the Glasgow Office and what was the cause of the delay in dealing with the matter, seeing that the report was not sent to the Aberdeen Surveyors until the 8th instant.

I am, Sir,

Your obedient servant,

T.J. Dodd Esq.,
GLASGOW.
