ASSURE

3rd September, 1913.

Gentlemen,

I return herewith the report forwarded with Mr. [unclear]'s letter of the 1st instant on the boiler salvaged from the wreck of the steamer "TADORNA", which has now been fitted on the steamer "LYNDIANE" ex "ARMIDA", and with reference to [unclear] etc I have to state that it is considered that some attention should be made in this report of the indentations on the shell of the boiler, described in Mr. Fowell's letter of the 28th May, and that at the same time it should be stated that these indentations do not affect the efficiency of the boiler in any way.

I am, Gentlemen,

Your obedient Servant,

Secretary.

Surveyors,
ABERDEEN.
