Lloyd's Register  
Foundation

The Committee have not  
hitherto allowed any steel vessel  
unless the material of which it  
is built has been tested as required  
by the rules, either at the manufacturing  
works, or at the ship yard; and it is  
considered that ~~the~~ it would  
not be desirable to depart from the  
usual practice.

Ans. 5/14/92  
14/92

p.s. I think it is not out of place  
to mention here that when it got  
known that the "Poodster" was likely  
to get a clay, others have turned  
their attention to it, so that I am  
going to Rotterdam to morrow to  
speak about another riveting,  
which will then be built under  
special survey. The vessel at the  
yard of Messrs F. Buels at Sluiken-  
veen. Engines and boilers at the  
"Katen Drechtstede Machinefabriek"  
at Rotterdam. The owner is a  
Mr. Flecke. I believe that I  
shall succeed, and I would be  
extremely sorry if the first case  
dropped through.

I am,  
Sir

Your obedient servant  
W. F. D. van Olfen
