

Sultan  
The fitting of Discharge valve, on to an Ash shoot.

It is submitted that Mr Jones be requested to state what means are adopted to prevent the Ash, from getting down the discharge pipes and in amongst the valves. And why this Novelty and departure from the rule, was not submitted, as required by the rules. When the pumping plan to which he refers was submitted, no mention whatever was made of this Novel fitting, nor were any details, whatever given of it.
