RECR - 9 JUL 95

ANSR

Sir,

In reply to your letter of the 5th inst., having reference to my report on the S.S. Glenarm, I beg to explain that it was the cellular double bottom that was retested on account of the new Keelsons passing through the fore end of same, which is about midships.

Regretting that I did not explain it in this way in my report.

I am,

Sir,

Your obedient servant
James Herpin
