H.

13th. September 1895.

Sir,

I have to acquaint you that it appears from a report received from the Surveyors at Belfast on the steamer "COUNTY DERRY" that to complete the Special Survey No.1, partly held at that port, the safety valves of the main and donkey boilers require to be adjusted under steam.

The vessel appears to have left Dundee for your port where it is understood that the survey in question will be completed and I have therefore to request that you will give the case the necessary attention.

I am, Sir,

Your obedient Servant,

Secretary.

F. Demblon Esq.,
Antwerp.
