H.

10th. September 1895.

Sir,

I have to acquaint you that it appears from a report received from the Surveyors at Belfast on the steamer "COUNTY DERRY" that to complete the Special Survey No.1 the safety valves of the main and donkey boilers require to be adjusted under steam.

This it is stated was to have been done on the vessel's arrival at your port and as she appears to have left Dundee about the 5th. instant I shall be glad to learn what action has been taken in the matter.

I am, Sir,

Your obedient Servant,

Secretary.

Mr. J. Thomson,

Dundee.
