

Belfast

18th October 90

The Surveyor to Lloyd's Register
Calcutta

Dear Sir,

I beg to advise you
that two new boilers for the
S.S. "Malahaja" (No 80. M.R.)
have been made here by
Messrs Walsby & Wolff.

The working pressure is to be
24 lbs & each boiler is stamped

No 222
Lloyd's List
160 lbs
A. L. L. 18.9.90

The boilers have been sent to Liverpool
to be there shipped for Calcutta
where it is the Owners' intention
to have them fitted on board.

Safety valves have been fitted
& will require to be adjusted
under steam.

The new main steam pipes
are being made in Glasgow.

A press copy of the report
on the boilers is enclosed.

Yours truly,
A. L. Jones
