REC'D - 7 NOV 1895
ANSR

Beaufort

6th November 1895

The Secretary
London.

Sir,

In reply to the classification letter regarding the S. S. "Maurice" I beg to say that the correct length of the after ballast tank is 110 ft (frame 14 to frame 69); & the depth of girder formed by the deep framing is 8½ inches.

I regret that these were not correctly entered in the report.

Yours, Sir,

Your obedient servant
A. L. Jones
