

Belfast

3<sup>rd</sup> November 1896

My dear Aunties  
In the tracing  
of kinship section of the  
S/s "Magician", Workman Clark  
& Co No 132, forwarded  
yesterday for preparation  
of the Certificate, I have  
marked that the Bridge &  
poop decks are steel frs.  
but I forgot to mark the

BEL67-0010

alteration in the beams of  
these structures which are  
filled  $6\frac{1}{2} \times 3 \times 8\frac{1}{2}$  bulb angle  
on every frame.

Will you be so good as  
to make this correction  
for me? The first entry  
reports will be forwarded  
today or tomorrow.

With kind regards  
Yours truly
