

of Arrows and the Jambes also
 Rule 21. of Jambes and also all
 take at the several measurements
 made by the Society's Surgeons in
 accordance with the Society's Rules
 viz: - Tunicale both ranging between
 twenty eight (28) lines and thirty-two
 (32) lines for square inch with an
 elongation of at least twenty (20)
 for cent on a length of eight (8)
 inches, before fracture, in number
 eight. Tunicale of an inch and
 above in thickness, and within
 (16) for cent in number below the
 thickness further, that they with-
 stand the cold hand and the
 finger both as provided by the
 Society's Rules.
