"Harland, Belfast."

ENGINE WORKS

Shipbuilding & Engineering Works,

Belfast, 5th April /00.

Messrs The Surveyors to Lloyds Register

Waring Street

Belfast.

Dear Sirs.

S/S "PARIS".

We purpose using for this ship an auxiliary boiler that was made for our No 327, and which passed the surveys of the Germanischer Lloyds and Baupolizei.

We enclose a photo print herewith, and also a list of the test results of steel plates & stay bars, as witnessed by the Surveyor for the Hamburg Baupolizei.

The boiler is now lying - complete - in our shop, and we shall be glad to have it passed by your Committee.

Waiting the favour of your reply, we remain

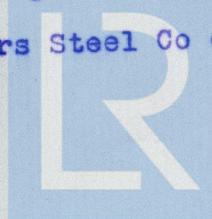

Yours truly

For HARLAND & WOLFF Ltd

A handwritten signature in dark ink, appearing to be "M. J. P." with a stylized flourish at the end.
