Glasgow 26th January 1903

The Secretary,

Lloyds Registry for British & Foreign Shipping.

L o n d o n .

Dear Sir,

"Maplemore".

We thank you for your wire of date from which we note that upon completion of Survey as regards Deck Wells being water-tight, you can issue certificate subject to indented bottom plating being satisfactorily dealt with when vessel next in dry dock. We have seen the Surveyors here, and are pleased to say the matter is now in order.

We shall feel obliged therefore if you will kindly hand your signed statement over to the Assistant Secretary, Marine Department, Board of Trade and thus save time.

Thanking you in anticipation,

We are, Dear Sir,

Yours very truly,

Geo. Smith & Sons
