Lloyd's Register of British & Foreign Shipping 190  
Oct 22/1907

to hand of 28th Sept also 16th Oct for  
thank you, and as all the gear  
fixed & the Boat now running  
by what you say it's not possible  
boat as intended although you  
I aware who was building the machinery  
you should have known as I informed  
for some 4 or 5 months if not more  
since of another gentleman what I  
done & I expected that Cocks would  
approached by you & informed me  
the boat is reliable & correct for her  
you have been paid accordingly the  
built by Riley Bros Ltd & is quite  
sufficient I hold now in my opinion  
quite capable also my shafts for  
working power & I feel to be why I am  
100 A1 Class of course this cannot be  
known as the Boat is at Work until  
our Surveyor have called on me twice but who  
I cannot say & neither do I like to hear him  
suffice as to stopping another being surveyed  
I remain Gentlemen William Burrell

Referred to the Chief

Referred to the Chief Ship Surveyor  
and the Chief Engineer Surveyor.
